Email:	shreekant_sb@ph.iitr.ac.in
Supervisor:	Prof. Mayank Goswami
Project title:	Learning to Correct Quantum Errors: A Compact Space-Time Convolutional Decoder for the Surface Code

To Prof. Mayank Goswami,

I, Shreeyam Bangera, hereby declare that I have no objection to the following, and give my consent for:

1. The **video presentation (VideoPPT)** of my project being uploaded by you, after review, to YouTube, with its link shared publicly so that anyone can view it and review my performance.

2. The **code** of my project being made public on GitHub. I will upload it to my own GitHub account after your review and share the public link, so that anyone can download and review it, including to check whether it is copied or "vibe-coded", and so that classmates can see the basis on which marks were given.

3. The **article** of my project being uploaded to a preprint server.

I understand that these materials will be publicly accessible for review of my work, and I have no objection to this.
